Answers & facts

Family Trivia · Round 1 · Animal kingdom · 10 questions

1. What do caterpillars turn into?

   D. Butterflies or moths

   Did you know? Inside its chrysalis, a caterpillar's body is almost completely rebuilt.

2. Which is the only mammal that can truly fly?

   C. The bat

   Did you know? Flying squirrels and sugar gliders glide. Bats flap their wings.

3. How many legs does a spider have?

   C. 8

   Did you know? Spiders aren't insects. Insects have six legs.

4. How many hearts does an octopus have?

   A. 3

   Did you know? An octopus also has blue blood.

5. What is a baby kangaroo called?

   B. A joey

   Did you know? A newborn joey is about the size of a jelly bean.

6. How do honeybees tell their hive where to find flowers?

   A. They dance

   Did you know? The "waggle dance" shows other bees the direction and distance to the food.

7. What is the largest animal alive today?

   C. The blue whale

   Did you know? Blue whales feed mainly on krill, tiny animals that look like shrimp.

8. A group of crows is often called what?

   A. A murder

   Did you know? A group of owls is sometimes called a parliament.

9. Which bird can't fly, but is the fastest runner on two legs?

   C. The ostrich

   Did you know? Ostriches can sprint at about 70 km/h (43 mph).

10. Why do sea otters often hold paws or wrap themselves in kelp while sleeping?

    C. So they don't drift apart

    Did you know? A group of resting sea otters is called a raft.
