A little table quiz

PLAYER EDITION

US-Letter • Edition 1.0.0 • Colour

Six questions to try together. Take a guess, compare answers and pass whenever you like.

Designed for 12+; 4-24 players in 2-6 teams. Time target: 45-60 minutes.

Prototype edition: independent human playtests and physical print checks are pending.

Before you play

Materials: Host screen or printed question cards; Paper for each team; Two to six teams

1. Read each question aloud and let everyone make a guess.

2. Use Reveal answer when you are ready. Keep scores if you like, or simply play together.

3. These six questions are included in The Big Night In. No purchase or sign-up needed.

Keep the host guide separate: it contains hints and solutions. Print at 100% scale on the labelled paper size. Do not select “fit” if measuring printed elements.

Science

Which planet is closest to the Sun?

Places & maps

On our fictional map, Oak is north of Lake. Which direction is Lake from Oak?

Food, by the numbers

A recipe uses two apples for four servings. How many apples for twelve servings at the same rate?

Odd little facts

Which came first: the Web's 1989 invention or its 1993 public-domain software release?

Visual deduction

Which symbol differs? ● ● ● ■ ●

The final wager

How many minutes are in three hours?

Keep the good times going.

Your licence permits the use described on your order. Do not share the full pack, resell it or upload it to a public drive. A role-play host may give participants their assigned role sheets for the actual event.

Need help? Use Help & access in your At Yours library and include the title, edition and page.

Local production edition. Human playtests, physical print review and final business details remain release gates.
