

Your hunt, ready in about 15 minutes.

Two free routes. Print one, or run them in different rooms. Playing usually takes 20–30 minutes; that is an estimate, so go at your own pace.

Picture Trail • ages 4–7 with a grown-up

Riddle Route • ages 8+

1–8 seekers

You'll need

- The cards for your route, printed and cut out (about 5 minutes)
- Tape or fridge magnets
- A small treat or prize for the treasure
- A phone for the free companion, optional with the paper tracker or decoder

Setting up

1. Send the seekers to another room.
2. Hide the cards in the order on the next pages (about 10 minutes). Tick each one off.
3. Open the companion, choose your route and "Printed cards".
4. Hand the seekers the start card and say go!

Safety notes

- Keep every card away from stairs, ovens, hobs, heaters, sockets and high shelves.
- Keep little ones indoors and in sight. Close doors to the street.
- Use tape or magnets, never pins. Make sure the bath is dry and empty.
- Check treats for allergies. Avoid small hard sweets for children under 4.
- Agree a "stop" word, and switch the lights on for anyone who prefers it.

No printer?

Put a small treat at each spot instead of a card. Choose "No printer" in the companion. Each clue appears on the phone, and you tap to confirm every find. Riddle letters appear on screen.

Playing again

Once seekers know the hiding places, the surprise is gone. For another round, use the "No such spot?" alternatives, move the treasure, or swap routes.

Running both routes?

Hide the picture cards in one part of the home and the riddle cards in another, so little seekers don't pick up a riddle card. The orange cards are the Picture Trail; the purple cards are the Riddle Route.

Bigger group?

Split into teams of 2 to 4, each with a reader. Print a second set for a race, hiding it at the alternative spots. Give every team the same treasure at the end.
