A Seat at the Table

Six woodland guests. One very particular dinner.

A complete free starter

2–6 per table · ages 8+ with a reader · 6 seating puzzles

Included expansion for All Together.

One purchase includes the main game and this expansion. A host can also download during an active All Access membership. No paid guest seats.
Scissors only for the marked piece sheets; ask an adult to cut for children.

Set up, then play.

Cut out the six guest cards. Each challenge uses the same six-seat row: seat 1 is at the left, seat 6 at the right. Move one guest into every seat until all clues are true. Left and right always mean as printed; immediately next to means one neighboring seat. Everyone can read and discuss the clues. No guessing from an illustration is needed. There is exactly one solution to each challenge. Check only the matching host answer when you are ready. Large gatherings can form several small tables.

What to print

The piece sheet, board and one challenge at a time. Use A4 or US Letter to match your paper. Select Actual size / 100%, single-sided. Print one copy per team. Low-ink editions have the same puzzles and labels.

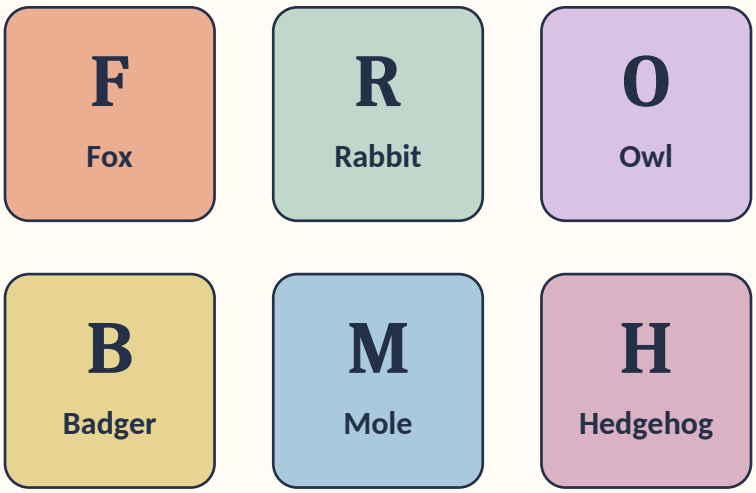

Make it comfortable

No timer is required. Read aloud if that helps, increase print scale for larger paper, or share the cutting and drawing. Pause between missions. There is no penalty for a hint. Color is decorative: letters, numbers and line patterns carry the rules.

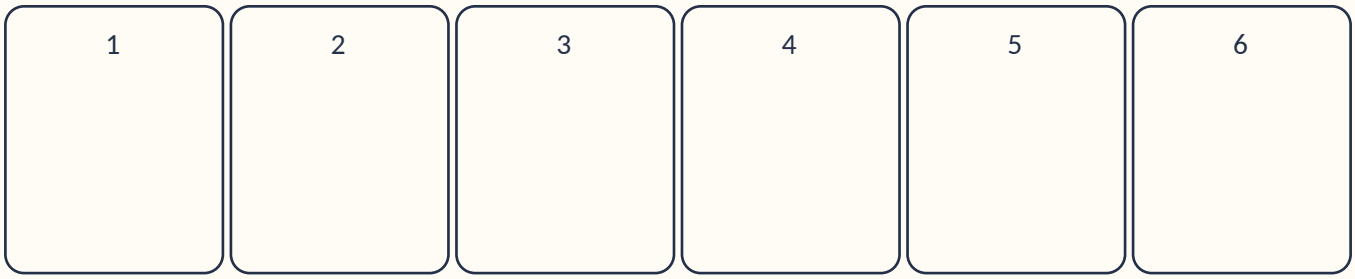

Use the separate host answer file after you finish. It contains full solutions. The host can play by leaving that file closed. This starter includes its answer on the final page.

Your playing pieces

Print at actual size. Cut along the outside borders. Keep this sheet for every challenge.

The dinner row

Place the cards upright in a left-to-right row. The seat numbers refer to this row, not to places around a circular table.

Dinner 1

Move the six guest cards until every clue is true.

Mole sits immediately to the left of Badger.

Mole sits at one end of the row.

Hedgehog sits immediately to the left of Fox.

Exactly one seat is between Hedgehog and Mole.

Rabbit sits somewhere to the left of Owl.

Our seating order, from left to right:

_____

Challenge 1 · answer

Host page. Keep separate until the players finish.

Left to right: Mole · Badger · Hedgehog · Fox · Rabbit · Owl

Mole sits immediately to the left of Badger.

Mole sits at one end of the row.

Hedgehog sits immediately to the left of Fox.

Exactly one seat is between Hedgehog and Mole.

Rabbit sits somewhere to the left of Owl.

Exactly one of the 720 possible seating orders satisfies these clues. Hint: start with the most specific position or neighbor clue, then test the possible placements.
